MOBILE PORTFOLIO · UI/UX SPECIFICATION

Built to be understood in two minutes.

My name is Student 2527389. I design and build thoughtful mobile experiences that work reliably—even when the network does not.

STRUCTURE

User flow & information architecture

02

NAVIGATION MODEL

Four tabs. One focused stack.

- **Home** — Identity + intro
- **Skills** — Capabilities + education
- **Projects** — Portfolio → Details
- **Profile** — Edit + About

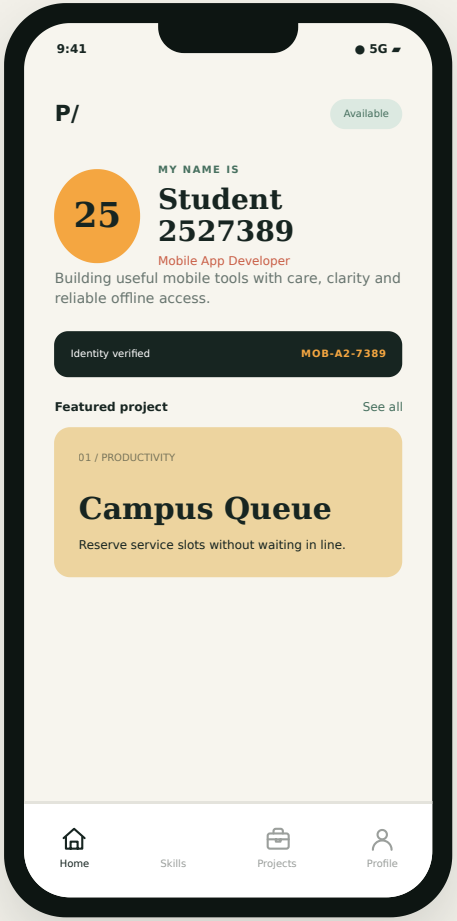

01 Launch AsyncStorage hydrates profile	**02** Explore Core content stays offline	**03** Update Validation runs per field	**04** Return Route and session persist

Offline is the default, not a fallback. Optional external links are clearly marked “Internet required.”

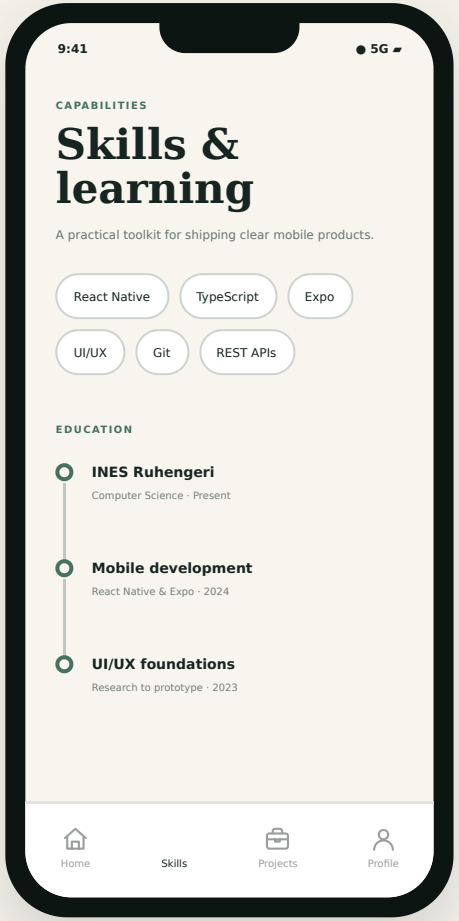

ANNOTATED WIREFRAMES

Home, skills & project discovery

03

01 · HOME

02 · SKILLS

03 · PROJECTS

A **Recruiter-first hierarchy**
Identity, role and proof appear before scrolling.

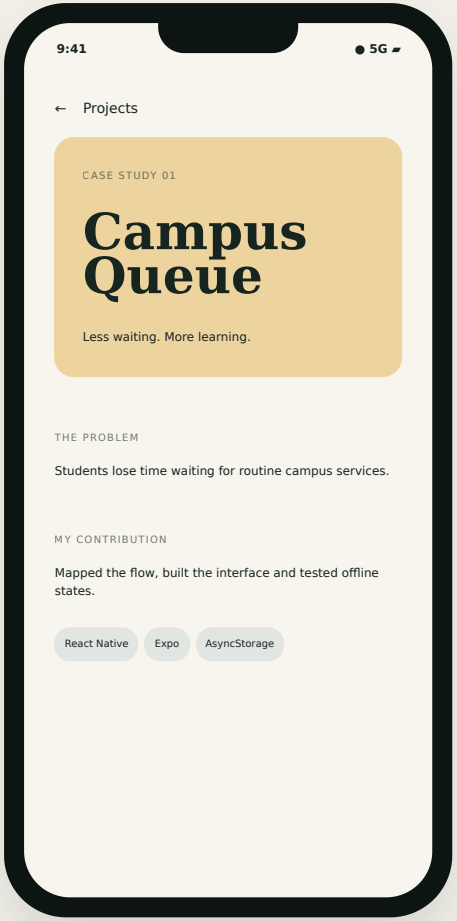

B **Reusable skill chips**
Wrap safely for narrow screens and large text.

C **Scannable evidence**
Problem, tools and contribution use consistent cards.

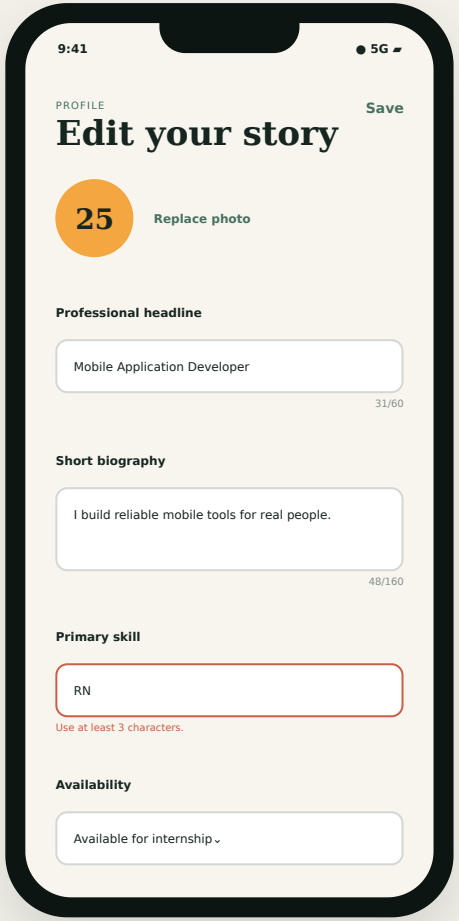

ANNOTATED WIREFRAMES

Project detail, editor & media states

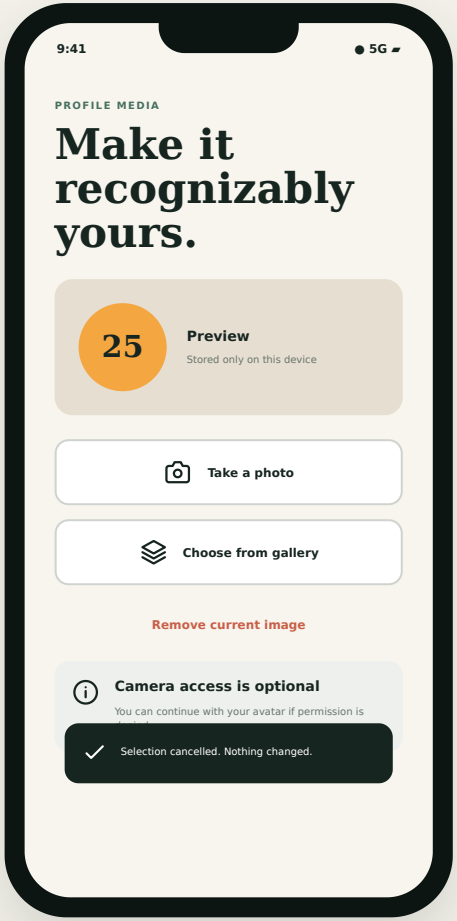

04

04 · PROJECT DETAILS

05 · PROFILE EDITOR

06 · MEDIA SELECTION

03

VALIDATION RULES **Headline:** 5–60 characters **Biography:** 20–160 characters **Primary skill:** minimum 3 characters

Messages appear beneath the relevant field, preserve user input and never rely on color alone.

DESIGN SYSTEM

Visual & accessibility decisions

05

COLOR SYSTEM

Warm, grounded, legible.

Ink	Primary text	#172521
Canvas	App background	#F2F0E9
Citrus	Action + emphasis	#F4A641
Moss	Success + status	#47705F
Coral	Errors only	#C95F47

TYPOGRAPHY

DISPLAY · FRAUNCES

Human stories, clear evidence.

INTERFACE · MANROPE

Friendly geometry makes dense mobile information easy to scan without feeling institutional.

8PT SPACING RHYTHM

8 16 24 32 48

Readable contrast
Ink on Canvas exceeds WCAG AA for body text. Status never relies on color alone.

Accessible labels
Icon controls include text or screen-reader labels with clear action verbs.

Large-text behavior
Cards grow vertically; chips and navigation labels wrap without clipping content.

Comfortable targets
Interactive controls use at least 48 × 48 dp with visible pressed and focus states.

DEFAULT TEXT

Available for an internship

→

200% SYSTEM TEXT

Available for an internship

Layout expands without truncation

IMPLEMENTATION COMPARISON

From approved intent to shipped product

06

FINAL DIRECTION

One coherent story from first tap to proof of work.

The final interface preserves the wireframe structure while using stronger typographic hierarchy, clearer offline cues and a warmer visual identity. These refinements improve scan speed without changing the approved flow.

ANDROID APPLICATION

Proofline Portfolio

Version 1.0.0 · Package: rw.ac.ines.s2527389.proofline

Data use Profile edits and the selected image reference remain on the device. No passwords, tokens or sensitive records are stored.

- 01 **Identity** — "My name is..." sentence + avatar + code
- 02 **Portfolio** — 2 projects + dedicated detail route
- 03 **Profile** — Controlled editor + 3 validation rules
- 04 **Media** — Capture/gallery + preview/replace/remove
- 05 **Persistence** — AsyncStorage for profile + image URI
- 06 **Release** — Standalone Android preview APK
